

Spotting & Stopping the

SCHOOL SHOOTER

Created & Presented by Don Shomette

Hard Lessons Learned from **APALACHEE HIGH SCHOOL** and the Worst School Attacks!

Join Don Shomette as we discuss...

- A detailed review of what happened at Apalachee High School and how it could have been prevented.
- Psychology, mindset, and aftermath of murder as well as why kids attack schools.
- Commonalities between Apalachee and other attacks.
- A detailed review of some of the worst school attacks and how they should have been prevented.
- What every school attacker has in common
- Eyewitness accounts and what they teach us.
- Danger signs that warn of an impending attack.
- Assessing student behaviors to determine their true risk.
- The two critical elements that make a perfect lockdown.
- The 7 Second Lockdown (each participant will receive the materials and support to implement this program in their schools)!
- Utilizing progression drills to speed up lockdown drills.
- What teachers and students do to survive an attack.
- and more

Disclaimer:

This course may contain graphic images and discussion! We promise that we will 1) give a warning before showing graphic images and 2) not show murdered victims.
